

It's time to
raise a little ^{sugar} cane

Sugarcane ethanol helps us:

- ✓ Diversify U.S. Energy Supplies
- ✓ Save Drivers Money
- ✓ Protect the Environment

Sugarcane ethanol is a clean and affordable renewable fuel that could help Americans save money at the pump, cut U.S. dependence on Middle East oil and reduce greenhouse gas emissions by more than 60 percent compared to gasoline.

But Americans cannot fully benefit from this clean, less expensive alternative if Congress continues to maintain trade barriers against imported ethanol.
